

How Do I Register for a Drop-In Class?

To register for a drop-in class, first go to our website and under “Registration,” and select “New Student.” Complete your profile and then login into the portal. From there, select “Account” at the top of the page then “Register for Class” or scroll down and click the “Register for Class” icon. Either way works! Once you have selected the class you are looking to drop-in on, **click “pick dates to drop-in”** NOT “register for class.”

Once your dates have been selected, scroll back up to the top and click “Finish Registration.” You are not enrolled in the class until you have paid the drop-in fee in full and signed the waivers. Once you've done that, you are all set for class!
