

## How to Set Up A Trial

Setting up a trial is the best way to get an idea if your child is going to love the class they're interested in! We do allow for them to trial any class once for free. To do this, head over to our website and click the "Registration" button at the top of the page and then select "New Students." This will prompt you to our parent portal sign in where you can create your profile. Once you have entered your information and added your student(s), you will be taken to the main parent portal web page.

From there, scroll down and click the "Register for Class" icon or you can find the same tab on the top of the page under "Accounts." Both take you to our class list!

Please keep in mind that we filter our classes based on your child's age, so if they have special permission to register for a class outside of the age limitations, please change their birthday to accommodate what's set for the class. You can change their birthday back once they are registered.

Instead of checking the box next to your desired class, please click "Schedule Trial" which is listed under the class name. It will give you options to choose a date that works for you. Select one then push "submit." Be sure to complete your final step by clicking the green button at the top that says "Finish Registration Now." After that, you should be all set!
